

Historic Preservation Element

COMMUNITY OPEN HOUSE

January 30, 2010

Goals and Policies

Comments Worksheet

Goals

- Identify and preserve significant historical resources.
- Promote educational opportunities and incentives to support historic preservation.

The goals for the Historic Preservation Element reflect the community’s input. (circle one)

Please share any comments:

10.1 Policies

- Conduct additional research on buildings identified as potentially significant in the survey report to evaluate their eligibility for listing in the City of San Diego Historical Resources Register.
- Conduct additional field work to identify buildings constructed 45 years prior that were obscured or inaccessible during the 2009 Barrio Logan Historic Reconnaissance survey.
- Develop a historic context statement related to the Mexican American “sense of place” and cultural landscape evident throughout the community to assist with the identification, evaluation and preservation of resources significant to that history. The context statement should include an oral history component to inform the context about those properties valued by the community.
- Conduct project specific Native American consultation early in the development review process to ensure adequate data recovery and mitigation for adverse impacts to significant archaeological and Native American sites. Refer potentially significant historical and cultural resources to the Historical Resources Board for designation.

The above Historic Preservation policies reflect the community’s input. (circle one)

10.2 Policies

- Foster preservation of designated historic resources through use of incentives.
- Continue to use existing incentive programs and develop new approaches, such as architectural assistance and relief from setback requirements through a development permit process, as needed.
- Encourage incentives for new development that could transfer the development rights from potentially and designated historic structures in order to preserve, maintain and rehabilitate them.

The above Historic Preservation policies reflect the community's input. (circle one)
